LASER STRATOS

LASER STRATOS/ LASER STRATOS KEEL

Versatility at its best.

STRATOS

A machine that relishes being put through its paces yet is equally perfect for family demands, with enough space for a clutch of children and consumables, from fast passages with the two of you to a leisurely holiday meander with family and friends; it delivers versatility without even a hint of compromise.

HULL AND SAIL COLOR OPTIONS – Red waterline hull as standard—no colour options

CONSTRUCTION – Glass re-enforced plastic (GRP or fibreglass) foam sandwich. This provides a light weight stiff and responsive hull. Still robust and low maintenance, easy to repair should you damage it.

STRATOS KEEL

The Stratos Keel is great for those who do not want to capsize and want a safe stable ride. It can be left on a mooring or day sailed from a trailer. The design is based on the popular Stratos design but with some internal modifications to house the keel option. (It is not possible to switch between the 2)

With an efficient purchase system the hand made, 100kg Keel can be raised and lowered with ease.

COLOR OPTIONS – The Keel only comes in blue. It is safe, fun and exciting.

SPECS - LASER STRATOS

| | | |
|--|-------------------|---------|
| LENGTH FT/M | 16.2 | 4.9 |
